Subject: Re: Rocky Flats Risk - where is the meeting? what time?
Attachments: RSALs and CRA at Rocky Flats - short (2017-9-12).pptx

Vera, Susan stopped by on her way to your office this morning and we discussed the development of RSALs and the Comprehensive Risk Assessment with Lindsay and our supervisor, Rob Beierle. Rob had asked for the discussion and asked that Susan be invited (see the second slide for his request). Should have invited you sooner; I was afraid your schedule wouldn't allow you time. You would have added to the discussion.

If you cannot open the attached file (23+ MB), let me know.

Wow, this is a pretty comprehensive presentation. I'll be happy to chime in with any questions on the risk assessment. I always think it is useful to remind people that we evaluated scenarios other than refuge worker, including a rural residential scenario.

Where should I go for this meeting tomorrow?

Susan

Susan,

I decided to put together some Power Point slides to help keep our discussion next Tuesday on track. Here's a draft - mostly taken from other presentations I've done over the past few years. Some slides are just background info and would just take a few seconds.

I still have to complete a few placeholder slides, but I wanted to get this to you to see if you have any corrections, suggestions, or additions. Please insert yourself into the discussion wherever and whenever you want. Thanks for adding us to your schedule.
